FOR IMMEDIATE RELEASE

Block Parties Remove 9 Tons of Debris from Chico Waterways

Chico, California –The Butte Environmental Council will be holding it's monthly Block Party with a Purpose event Saturday, April 2 from 9 a.m. to noon concentrating this month's efforts on Little Chico Creek. This month's meeting point will at the park next door to 673 Humboldt Ave.

The Block Party with a Purpose program is held the first Saturday of every month. The project is free and supports residents joining together to clean up sections of Chico's urban creeks, which are impacted by invasive species and garbage. To date the Butte Environmental Council and many volunteers have collected 9 tons of rubbish from Chico's streams.

Over the years, local urban creeks have become choked with invasive plant species, as well as more recent increases in garbage from encampments set up along the creeks, that has left our community with a problem that seems to be spiraling out of control. Invasive plant species outcompete beneficial native plants and provide fuel for fires, while excessive garbage pollutes the water and leaves neighborhoods looking neglected.

"Little Chico Creek is one of the most impacted waterways in Chico," said Lindsay Wood, BEC's Watershed Coordinator. "We need neighbors more than anything to come out and be stewards of their waterways."

Tackling this problem is intimidating for everyone: neighbors, the city, businesses, and environmental advocacy groups. When we get together and boost combined efforts urban waterways can once again be the beautiful neighborhood creeks and healthy wildlife habitat corridors that they once were.

A special thanks to our partners who've helped make a difference in our community's waterways: City of Chico Parks Department, Sheriff's SWAP Crew and the California Conservation Corps. Along with our community sponsors of the program: Orchard Supply Hardware, Waste Management,, Beach Hut Deli, Beatniks Coffee House, Klean Kanteen, Sewing Chic-O and Golden Valley Bank.

A little background:

The program initially started in fall 2014 as a partnership between BEC, California Native Plant Society (CNPS) and the City of Chico. The program now continues with funding from the City of Chico's Community Grant program. This event is made possible with the help of many generous sponsors, allowing efforts to be taken even further by empowering and supporting those who care most to take action – the people living adjacent to urban streams.

###

The Butte Environmental Council is a non-profit environmental organization based in Chico, California. BEC's mission is to protect and defend the land, air and water of Butte County and the surrounding region through action, advocacy and education. Since 1975, BEC has played a significant part in shaping the environment and policies of Butte County and surrounding areas.
