

As a part of Butte Environmental Council's (BEC) North Valley Energy Watch program and its partners; Northern Rural Communities Development (NRCD), Pacific Gas & Electric (PG&E), and Northern Rural Training and Employment Consortium (NORTEC) collect the participant's name, address, email address, street address, age, school, and phone number for the purpose of tracking age and communities reached, notification and delivery of any prizes for completing the quiz, and to prevent duplicate entries. This information is collected directly from the participant and only age, city, state, zip code, and school will be disclosed to the partner agencies listed above at the request of the agency.

BEC does not require a child to disclose more information than is reasonably necessary to participate in the Energy Conservation Quiz. The parent and/or legal guardian may review their child's personal information, direct BEC to delete it, and refuse to allow any further collection or use of the child's information. This would result in forfeiting of any and all prizes. The parent and/or legal guardian agrees to the collection and use of their child's information. The parent and/or legal guardian may not allow disclosure to partners listed above with exception of age, city, state, zip code, and school. Contact BEC immediately after completing quiz to exercise those rights.
